

Minimax Exercise

1. Give the values calculated by minimax for all states in the tree. Do not use alpha-beta pruning.

2. Indicate which branches of the tree will be pruned by alpha-beta pruning

Le prossime mosse sono le prime, quelle con valore 2.

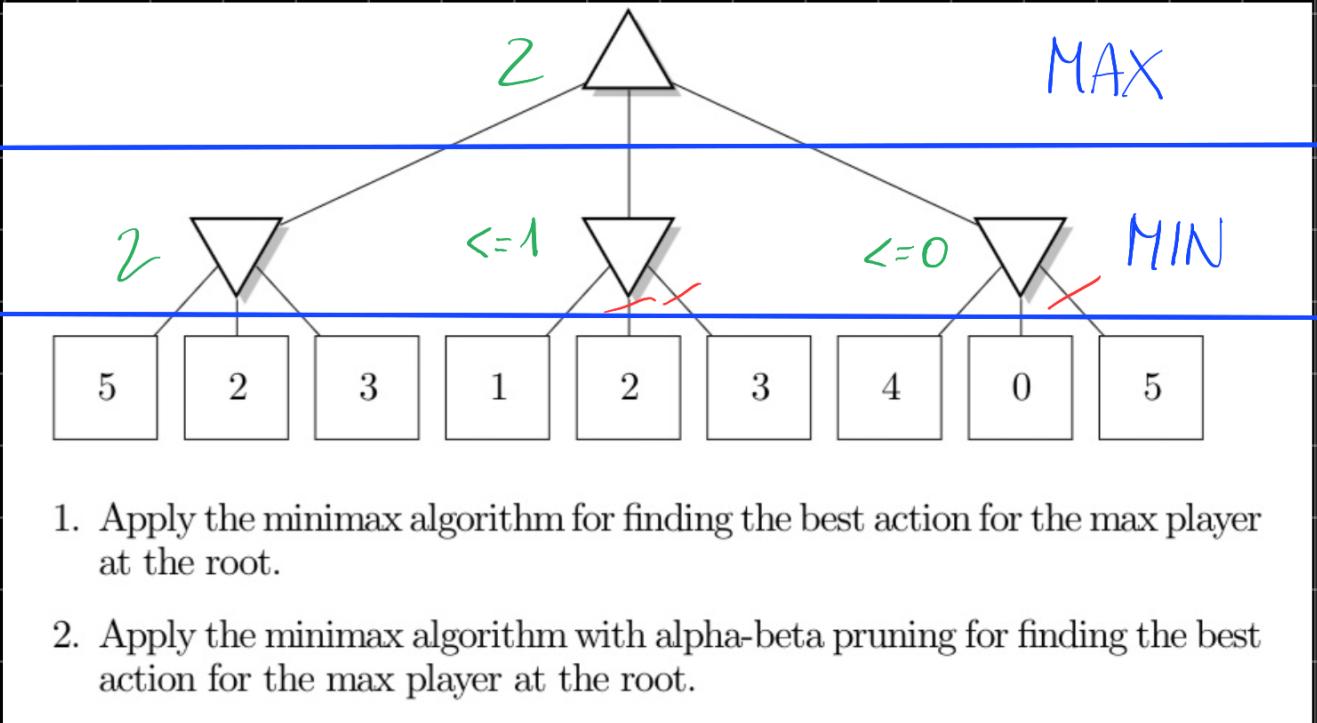

MAX = \triangle

MIN = ∇

Le mosse eseguite sono le prime, quelle con valore 2.

Le mosse scritte sono le prime: quelle con valore 2

Viene scelta la prima mossa: quelle con valore 2
